Brynka Intelligent Locker solutions empower organizations to receive delivery items directly into an intelligent locker.

Notifications are sent to the recipients with a pin or QR code or utilize a mobile device to pick up their items at their convenience for contactless retrieval.

Once picked up, Brynka software is updated with the delivery information.

Browse package history, export proof of delivery, create data exports with our ad-hoc reporting tool and measure mail center performance with our management reports.

Reduce labor costs, gain space and add a new layer of security in the mail center with Brynka Intelligent Locker solutions.

OTHER BENEFITS

- * Alleviate package clutter in the Mail Center
- * Save time and money by simplifying package handling
- * Receive all packages to secure lockers and recipients can pick them up at their convenience
- * Customizable locker sizes
- * Scalable for future package growth
- * Innovative solutions beyond lockers
- * Lockers are also great solutions for resident halls, bookstores, libraries, athletics, IT, food services and more
- * Assistive controller option for visually impaired users with audio guidance and dedicated lockers
- * Ability to manage ADA options in individual accounts
