

HIGH DENSITY FOLDERS

Features	Benefits
Size	Free standing HD Mail Racks are ideal for larger user communities and limited floor space: <ul style="list-style-type: none">- 48"W 15"D 76"H
Capacity	250 Folders (per rack) in only 5 square feet.
Folders	High grade durable folders, individually barcoded <ul style="list-style-type: none">- Temporarily assigned to recipients (Minimize footprint)- Can be configured for each recipient
Notifications	With Brynka Receiving, send recipients a notification they have mail to pickup. Can also Deliver with packages.
Workflow	Simple and efficient process to handle Mail Deliveries

With the Brynka High Density Folder solution, make Mail Deliveries easy and efficient!

- Assign Mail to Folders at time of receipt. When Mail is delivered, that folder is available for another recipient. This method provides the best cost and minimal footprint.
- We can also support assigning the folders to each recipient to mimic traditional mail boxes.

Maximize your mail delivery process!

Deliver mail items individually or bundle them with package pickups, to ensure that all items have been delivered.
