## PRINT CENTER SOLUTIONS

| Features | Benefits |
|---|---|
| WorkFlows | Automate common workflows and fulfillment tasks, and use barcoding to move jobs through your workflows |
| Customer Satisfaction | Increase customer satisfaction by expanding services and providing 24x7 ordering and job status |
| Secure | Designed for deployment in highly secure environments like Fortune 500, financial and government entities |
| Compatibility | Print drivers for Mac and Windows (SurePDFTM) ensure print- ready PDFs |
| Document Accuracy | Online document ticketing and preview shows finishing options as they are selected, eliminating mistakes |
| Productivity | Increase productivity by eliminating re-ticketing and operator "touches" with electronic ticketing direct to all production printers. |
| Efficient | Support for enterprise authentication, integration with enterprise applications |
| Reporting | Put management, reporting, scheduling and control at your fingertips with at-a- glance views of the entire production facility. Improve process measurement, data collection and reporting and streamline billing and chargeback processes all with one solution. |
| Print Job Costing | Enable volume discounts, multiple rate sheets and preferred customer pricing with defined business rules. |

With the Brynka Print Center Solution, powered by RSA, manage Print Jobs easy and efficiently!

- Automate web ordering, fulfillment, job ticketing, production management and chargebacks across corporate print centers.
- Increase automation and grow volume as much as 30-300% without adding staff
- Shift volume from more expensive print sources to cost-effective in-house production printers
- Increase employee productivity and print volume

Maximize your Print Center process!

A whole new way of improving quality and customer satisfaction.
